

LogiCon

LEAN

SECURE and RELIABLE

LOGISTIC

CONNECTIVITY

for SMEs

**LOGICON STANDS FOR LEAN SECURE AND RELIABLE LOGISTICS CONNECTIVITY FOR SME'S.
LOGICON IS A 24 MONTHS EUROPEAN PROJECT FUNDED UNDER THE 7TH FRAMEWORK PROGRAMME.**

Project Start Date : September 1, 2013

Project End Date : August 31, 2015

LOGICON IS DEVELOPING, SIMPLE AND PRAGMATIC TARGETED SOLUTIONS FOR DATA EXCHANGE IN TRADE AND LOGISTICS FOR SMES THAT SUPPORT DIGITISATION OF DOCUMENT EXCHANGE REDUCING THE NUMBER OF ERRORS AND TIME OF INFORMATION DELIVERY.

LOGICON PROVIDES TO TRANSPORT SMES ACCESS TO LOGISTIC PLATFORMS, FROM THE SOPHISTICATED ONES TO SIMPLE ONES:

- by developing secure lean data exchange replacing proprietary and manual solutions,
- by demonstrating the solution as simple, transparent, easy to use, reliable,
- by enabling the adoption by SMEs as bridge towards collaboration platforms.

MANY LOGISTIC COMPANIES WORK TOGETHER, BUT THERE IS A BREACH BETWEEN COMPANIES PARTICIPATING IN ADVANCED PLATFORMS AND LOGISTICS SMES WITH VERY BASIC ICT. LOGICON AIMS TO INCLUDE THESE SME BY:

- preparing them for collaboration and removing barriers,
- demonstrating validity of Logicon results in a set of Living Labs,
- expanding concept and establishing partnerships with Logistic Platforms.
